Like so many progressives in Cambridge, I am relieved to live in a place where human rights matter. Please continue that legacy by voting to not renew the city's contract with Hewlitt Packard.

I'm sure you're getting pressure from the organized right wing of the jewish community. But, as a Cambridge resident whose family has lived in Israel/Palestine since the 19th century, I assure you they do not speak for the majority of jews in the US or in Israel.

I urge you to have the courage and resolve to be on the right side of history and vote to not renew our contracts with HP.
